Continuing Education Credit

- 1.0 Hour of Continuing Education Credit
- Available for Physicians, Pharmacists, and Nurses

Dear Healthcare Provider,

Thank you for the care and expertise you provide to patients in our community. My name is Takailah Lacey, and I am a graduate student at Roseman University of Health Sciences working alongside Dr. C. Leiana Oswald, Associate Dean and Professor of Pharmacy Practice, and Dr. Michelle Hon, Director of Student Affairs and Associate Professor of Pharmacy Practice, on a diabetes care initiative focused on improving how providers recognize and address Social Determinants of Health (SDOH) in clinical settings.

As part of this effort, we are inviting providers across Nevada to participate in a brief survey

exploring the real-world challenges clinicians face when making care recommendations related to social services, resource access, and diabetes self-management support.

Your input will help guide:

- Provider training
- SDOH screening and referrals
- Access to community resources
- Care coordination strategies
- Continuing education (CE) programming

The survey takes approximately 3–5 minutes to complete, and responses will be used in aggregate to guide program planning and quality improvement efforts.

Survey Link: [Provider Survey – Fill out form](#)

[Provider Survey](#)

<https://forms.cloud.microsoft/pages/responsepage.aspx?id=2svG-dnJ70u7uO3fdINObiMhExug8MIPpmaK1W6Rp15UMFRCUkFPUIkzOE03WTdGMU4zMjRCS0w0MS4u&route=shorturl>

We welcome participation from physicians, nurse practitioners, physician assistants, pharmacists, endocrinologists, and other multidisciplinary diabetes care providers throughout Nevada.

If you have any questions about the survey or the broader initiative, please feel free to reach out to members of our project team listed below, or connect with me directly:

Dr. C. Leiana Oswald – coswald@roseman.edu

Dr. Michelle Hon – mhon1@roseman.edu

Takailah Lacey – tlaceykennedy992@student.roseman.edu

As a token of our appreciation, participants who complete the survey may opt into a drawing for a complimentary pair of FIGS scrubs. If you would like to be eligible, please include your preferred email address at the end of the survey so we may contact you directly should you be selected.

Thank you in advance for your time and for contributing your perspective to work aimed at improving diabetes outcomes across our state.

Warm regards,

Takailah Lacey

6. Las Vegas REACH

Free Training End of Life Care

Training only available in Spanish

Hello everyone,

We are pleased to share that we will be offering a special training hosted by **Compassion & Choices** [Compassion & Choices | End-of-Life Resources](#) as part of

our **REACH Learning Circles Program.**

This training will be conducted in **Spanish** and is **completely free of charge.**

If you are interested in participating, please complete the registration form below:

https://docs.google.com/forms/d/e/1FAIpQLSdOPxhbS_YvwNoxIMPWeO4KPO7T1iCgxIXt3DsYtl108sN9Aw/viewform

Space is limited, so we encourage you to register as soon as possible.

Thank you, and we look forward to seeing you there!

Hola a todos,

Nos complace compartir que tendremos un entrenamiento especial impartido

por **Compassion & Choices** [Compassion & Choices | End-of-Life Resources](#) como parte de nuestro programa de **Círculos de Aprendizaje de REACH.**

Este entrenamiento será **en español y completamente gratuito.**

Las personas interesadas en participar pueden registrarse en el siguiente enlace:

https://docs.google.com/forms/d/e/1FAIpQLSdOPxhbS_YvwNoxIMPWeO4KPO7T1iCgxIXt3DsYtl108sN9Aw/viewform

EL CUPO ES LIMITADO, por lo que les recomendamos registrarse lo antes posible.

¡Los esperamos!

Familias sobre el Final de la Vida

Esta capacitación es para promotoras(es) de salud y líderes comunitarios que trabajan con familias latinas. Aprenderás cómo empezar pláticas sobre el final de la vida de forma humana, respetuosa y desde nuestra cultura, con herramientas que puedes usar de inmediato en tu comunidad.

¿Por qué esta capacitación es para ti?

- ✓ Aprender cómo iniciar pláticas difíciles en nuestras familias sobre el final de la vida
- ✓ Usar la guía Mis Decisiones al Final de la Vida para facilitar la conversación
- ✓ Aprender y practicar técnicas de Entrevista Motivacional que ayudan a que la gente se abra
- ✓ Conocer el modelo de Etapas del Cambio para entender en qué momento está cada persona
- ✓ Adaptar la conversación según la cultura, el idioma y la experiencia de cada familia

Contaremos con desayuno gratuito!

Do You Have Prediabetes?
Join the Lifestyle Change Program - Starting June 8!

- The National Diabetes Prevention Program lifestyle change program can help you build healthy new habits that last a lifetime.
- When you join the program, you'll learn, laugh, share stories, and try new things.
- Most of all, you'll lower your risk of type 2 diabetes and improve your health.

New group starting on June 8th at Flamingo!

9880 W Flamingo Rd, Suite 220, Las Vegas, NV 89147

Call or text us at

702.620.7800 for more information.

Diabetes Prevention Program

You can reduce your risk of developing diabetes by as much as 58% (71% if you are over age 60)

If you have been diagnosed with prediabetes, or are at risk of developing type 2 diabetes, you may qualify for this program. Join us in this CDC-approved 12-month program, given in 16 weekly sessions, followed by monthly maintenance sessions.

This lifestyle change program offers:

- A certified lifestyle coach to guide and encourage you
- The skills you need to be more physically active and promote healthy eating habits
- Group support from other participants in the program
- Stress management and problem solving

Take charge of your health and make the commitment now.

CPR Heart Month

TWO STEPS TO SAVE A LIFE

1 Call 911

2 Push hard & fast in the center of the chest

CPR Fact Sheet

♥ Why Learn CPR?

Cardiac arrest is a leading cause of death. It happens when an electrical problem in the heart causes an irregular heartbeat. This disrupts blood flow to the brain, lungs and other organs. Each year, more than 350,000 people in the U.S. have an EMS-assessed out-of-hospital cardiac arrest. More than 22,000 are children, and nearly 28% of these are infants.

When a person has a cardiac arrest, survival depends on receiving CPR from someone nearby right away.

According to the American Heart Association, about 90% of people who have out-of-hospital cardiac arrests do not survive. CPR, especially if performed right away, can double or triple the chance of survival. Learn CPR today. Be ready. Become a part of the Nation of Lifesavers.

No one should face a life-changing moment alone.

♥ Be the Difference for Someone You Love

If you provide CPR, you will likely be trying to save the life of someone you love: a child, a spouse, a parent or a friend.

For adults, Hands-Only CPR has been shown to be as effective in the first few minutes as CPR with breaths for cardiac arrest at home, at work or in public.

Hands-Only CPR has two easy steps, done in this order:

Call 911 if you see a teen or adult suddenly collapse.

Push hard and fast in the center of the chest to the beat of a song that has 100 to 120 beats per minute.

Breathing problems often cause cardiac arrest in children. This is why it's important to give two rescue

About **33 percent** of out-of-hospital cardiac arrests happen in homes.

More than 40% of people who have an out-of-hospital cardiac arrest get the urgent help they need before professional help arrives.

breathe with each set of 30 compressions for infants and children.

Call 911
The dispatcher on the call can help you while getting the medical help you need on the way.

Music Can Save Lives
While performing CPR, you should push on the chest at a rate of 100 to 120 compressions per minute. Songs that may help you stay on beat include, *Staying Alive* by the Bee Gees, *Crazy in Love* by Beyoncé, *Ripe Don't Lie* by Shakira, or *Walk the Line* by Johnny Cash.

Learn CPR today. Be ready. Become a part of the Nation of Lifesavers. No one should face a life-changing moment alone.

AHA still recommends CPR with compressions and breaths for infants and children and adults at home, dog owners, or people who witness a cardiac breathing problem.

Nation of Lifesavers is nationally sponsored by *Walgreens*

Be Ready. Find a CPR class at heart.org/location.
